

Dear Polo manager,

As polo grows, the need for independent umpires is high.

I hereby introduce myself as a professional umpire for your polo matches.

I can work together with a second umpire or work alone up to 12 goals polo. If the level is higher than 12 goals, I suggest to hire 2 umpires due to the speed of the game.

I can provide you a service for the FIP rules as well as the HPA rules depending on your choice.

Another service I provide, is giving instructional chuckers .

The instructional chuckers.

That's when we play chuckers and every foul committed will be explained, as well as manners to get around some rules.

The objective of this is to have less fouls at the field and faster polo which will benefit the sport.

In the rules classes we will go over the most important rules of polo and we will try to get in the minds of the rule makers for a better understanding.

Learning to play polo is also one of the services I provide for starting players. It is so important to start with good basics to be able to keep on growing in a sport.

If you are interested in these services, you can contact me by e-mail frio-horse@telenet.be or call 0032/478.88.10.91

I look forward to be at your service.

Kind regards,

Bert Van Deynze
